

JOHN KING

IT Technician

PROFILE

I am a hard working respectful young man, looking for the opportunity to build up experience to become a Senior Developer, being able to manipulate many software with a professional touch.

I believe with your help, my knowledge and skills could improve drastically and empower me to fulfill my full potential.

I also have an interest in Artificial Intelligence.

Chess

EDUCATION

Hoërskool Dr. Malan

2010 – 2014

Subjects: Afrikaans, English, Mathematics, Accountancy, Physical Science, IT, LO

I was part of the Sedibeng Chess team during my school years.

North-West University

2016 - 2020

BSc Information Technology

WORK EXPERIENCE

Drumblade, Maintenance & Safety, IT Technician

2017–current, part time

I during this period I have come into contact with the Internet of Things, specifically Raspberry Pi and java web based applications (Not the development thereof).

I have practical knowledge concerning 5v-24v Pi GPIO usage.

I have learned the value of teamwork, hard work and professionalism in the workplace, as well as customer care skills that proved to be invaluable.

The Managing Director has mentored me substantially.
