WORK EXPERIENCE

Drumblade, Maintenance & Safety, IT Technician
April 2017 – January 2021
I during this period I have come into contact with the Internet of Things, specifically Raspberry Pi and java web based applications (Not the development thereof).
I have practical knowledge concerning 5v-24v Pi GPIO usage.
I have learned the value of teamwork, hard work and professionalism in the workplace, as well as customer care skills that proved to be invaluable. I have provided training on the application.
The Managing Director has mentored me substantially.
